Dear Public Service Commission,

Duke should quit investing in dirty, old energy like coal and nuclear, and actually invest in the cheaper renewable technologies its executives claim to support. I want the Carolinas to be more energy efficient and powered by local wind & solar that will employ thousands of Carolinians.

Sincerely,

Rod Watkins

Please act to put Carolinians' welfare first! We have the potential to be leaders, not followers, in the energy movement!

Thank you for considering my comments.
